

872**12 ESS – ESOL Science**

This course enables English language learners (ELLs) to study, work towards and gain Level 1 NCEA Science Standards in a well-supported one-year programme.

Students should be able to progress to mainstream Science in the following year.

Target students are international and migrant students in Years 11 or 12. The students are working at Stages 1-2 of the English Language Learning Progressions.

NCEA STANDARDS – 12ESS
